

Top 12 Native Plants used for Landscaping in Weld County

For the Xeric landscaping that is popular in Colorado, more and more people are utilizing native plants in their yards. These plants are well adapted to our arid climate and won't add to the noxious weed situation. Common native plants used as ornamentals in Weld County include: Penstemons, Blanket Flower, Blue Flax, Scarlet Globe Mallow, Yarrow, Wild Bergamot, Mexican Hat, Lupine, Primrose, Spiderwort, Coreopsis and Gay Feather.
